Dear Fabi,

On behalf of Capricorn Tourism and Economic Development Board, Members and staff, please accept my very sincerest thanks for addressing our inaugural *"Transforming our Region of Innovation – Towards 2020"* Conference on Thursday 17th March 2011.

Your presentation was excellent and we have received very positive feedback from our conference participants regarding the content of your speech (as usual!!). As you know, the start to 2011 has been extremely challenging for our Tourism Industry, yet our region is poised for major growth and economic prosperity, and it is forums such as our conference which has helped to again buoy business confidence in our region. The positive re-enforcement from yourself and other guest speakers regarding the importance of the leadership demonstrated by CTEDL in working with all levels of government, business and industry for the betterment of our region was most appreciated.

Fabi, thank you so very much for giving of your time to assist us in providing opportunities for our businesses to learn, prosper and grow.

Kind regards,

Mary Carroll
Chief Executive Officer
